

Showsilk Glo-Colour Shampoos

EQUINADE Showsilk Glo-Colour Shampoos have been formulated to give an even depth of colour and add a healthy glow to coats. The rich colours and shine boosters will revitalise dull and patchy-coloured coats to create even tones and a bright, lasting shine. The shampoos have been pH balanced to be gentle enough to use on many show animals; including horses, dogs, cats, cattle, goats, rabbits, fowl and other birds.

Showsilk Glo-Colour Shampoos are concentrated and have high cleaning capabilities making them economical to use. Showsilk Glo-White Shampoo is suitable for grey and white animals and also for multi-coloured coats to enhance the brightness of all colours. All Glo-Colour Shampoos are available in 250ml, 500ml, 1lt, 2.5lt, 5lt and 20lt bottles. The complete Equinade range of products can be purchased at pet, produce and equestrian stores throughout Australia.

Helpful Hint:

When using Glo-Bay, Black or Chestnut on an animal with white socks or blaze, protect the white markings with Equinade "Showsilk" Conditioner before shampooing!
