

Glycerine Leather Soap

Equinade Glycerine Leather Soap is a premium quality soap for use on all fine leather goods, including saddles, bridles, harness and boots. Made with a high glycerine content which ensures all grime and dirt is removed easily while softening the leather and preventing it from drying out. All in one simple application!

Equinade Glycerine Leather Soap is easy and quick to use. Simply apply with a damp cloth and work in evenly. Finish by buffing with a clean dry cloth.

Once the leather is clean and dry, nourish and protect it with an application of Equinade Leather Dressing to protect and preserve all leather goods.

Available at leading equestrian supplies and produce stores in a 220g tub.
