

Premium Light Neatsfoot Oil

Equinade Premium Light Neatsfoot Oil is a high quality oil that is quickly and easily absorbed by leather. Use to soften, preserve and protect leather to ensure a long, useful life for all your leather gear.

The highest quality, fully refined neatsfoot oil is used in the production of **Equinade Premium Light Neatsfoot Oil**. This means that there are no solids which separate, it has a light viscosity for maximum absorption by leather and also a low acid content to gently care for leather.

Equinade Premium Light Neatsfoot Oil is ideal for use on leather harness, saddles and other gear:

- ✓ Quickly absorbed by leather
- ✓ Softens and preserves leather gear without damaging stitching
- ✓ Protects leather from drying out and also repels water
- ✓ Restores cracked, dried-out or stiffened leather to a soft manageable condition
- ✓ Contains premium ingredients for a premium product

TO USE: ensure leather is clean and dry. Apply using a brush and allow the oil to be absorbed for 2-3 hours. Wipe away excess oil with a dry cloth. For dry leather, a second application may be required.

Available in 500ml, 1lt, 2.5lt, 5lt and 20lt sizes at your local produce or equestrian store.
