

## Synthetic Harness Cleaner

Equinade Synthetic Harness Cleaner makes cleaning your gear easy. A clever combination of powerful surface active ingredients and cleaning agents work to loosen and remove stains, dirt, sweat and built-up grime to leave your riding gear looking great again.

All vinyl and plastic items are suitable for cleaning with Equinade Synthetic Harness Cleaner, including saddles, bridles, boots, harness and helmets.

To use, simply spray on and wipe off using a damp cloth. Then use a clean damp cloth to remove any residue cleaning agents. For heavily ground-in dirt or stains, spray on and leave for several minutes before wiping clean.

Equinade Synthetic Harness Cleaner is available in an easy to use 500ml spray bottle. Refill bottles are also available in a 2.5lt size.

Visit your local equestrian or produce store to find this product and other superior quality Equinade products.
